C.BK3

Two-Stage Dropping Kit

The C.BK3 is a dedicated accessory for M3 industrial drones, featuring red-blue strobe lights and a two-stage payload dispenser.

It is lightweight, quick-mount, and allows payloads to be installed via hooks or straps, making it convenient for complex multi-device missions.

The device uses an industry-standard PSDK control link for safe and reliable operation.

Key Features:

- PSDK Control Link: Industry-standard, secure communication
- Bottom Quick-Mount: Non-destructive installation for M3 drones
- Plug-and-Play: Ready to use without modification
- Alert System: Exception status reporting for safe operation
- No-Power Mounting/Delivery: Can be mounted and deployed without onboard power
- Lightweight Design: Easy to carry and integrate into missions
- Dual Red-Blue Strobe: 10 W per channel for high visibility
